PROFESSIONAL SUMMARY

Full Stack Developer in training with hands-on experience in modern frontend development using HTML5, CSS3, JavaScript, React.js, Tailwind CSS, and Bootstrap. Currently expanding backend development knowledge with Node.js, Express.js, REST APIs, and Databases while building practical skills in AI Tools and Automation Workflows. Computer Science & Engineering student with a foundation in C, Java, Python, Object-Oriented Programming, Data Structures, and Algorithms. Focused on practical development, problem-solving, continuous learning, and building toward a career in Software Engineering and AI & Automation.

TECHNICAL SKILLS

Programming Languages: C, Java, Python, JavaScript
Computer Science: Object-Oriented Programming (OOP), Data Structures, Algorithms, Programming Logic
Frontend Development: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Bootstrap, Responsive Web Design, DOM, Events
Backend Development: Node.js, Express.js, REST APIs, Databases (currently learning)
AI & Automation: AI Tools, Automation Workflows, Practical AI Solutions
Tools: Git, GitHub, VS Code, Chrome DevTools

PROFESSIONAL EXPERIENCE

Contact Center Representative | Data Entry Executive

IHelpBD | March 2025 – Present

- Handle customer inquiries and provide professional contact center support through clear communication
- Perform data entry, customer information management, and spreadsheet-based data organization with accuracy
- Maintain records and support reporting and administrative activities through organized data management

PROJECTS

Personal Portfolio Website

Technologies: HTML5, CSS3, JavaScript, Font Awesome, Git, GitHub

- Developed a responsive personal portfolio website to showcase skills, projects, development journey, and professional profile
- Implemented frontend functionality using HTML5, CSS3, and JavaScript with a focus on responsive web design
- Managed project version control and deployment using Git and GitHub

GitHub: github.com/syedtajuddinahmed/syedrifat-portfolio | Live: syedtajuddinahmed.github.io/syedrifat-portfolio/

Snake Game

Technologies: Python, Pygame, Git, GitHub

- Developed a classic Snake Game using Python and Pygame with interactive gameplay and score-based mechanics
- Applied Python programming logic and game development principles to create an interactive experience
- Used Git and GitHub for project version control and repository management

GitHub: github.com/syedtajuddinahmed/snake-game-python

EDUCATION

Bachelor of Science in Computer Science & Engineering

European University of Bangladesh (EUB) | Currently Studying | Expected Graduation: 2029

PROFESSIONAL TRAINING

Professional Training in Full Stack Development | Creative IT Institute

Professional Training in AI Automation | Creative IT Institute

ADDITIONAL EXPERIENCE

Marketing Executive | Promotion BD | 6 Months

- Supported restaurant promotion, marketing activities, customer engagement, and promotional campaigns
- Developed practical experience in communication and customer handling

Home Tutor | 1+ Year

- Provided private tutoring and explained academic concepts according to students' learning needs
- Developed communication, adaptability, and time-management skills through regular interaction with students and guardians

ACHIEVEMENTS

Participant — EUB Intra-University Programming Contest 2025 | European University of Bangladesh | Certificate of Participation

LANGUAGES

Bengali — Native | English — Professional Working Proficiency
